FEEDBACK

Overview

What is ReCap Pro?

Use ReCap™ Pro 3D scanning software to create 3D models from imported photographs and laser scans. Deliver a point cloud or mesh in support of BIM processes. Collaborate across teams with design based on reality.

ReCap Pro overview (video: 1:58 min.)

## Reality capture software for accurate, survey-grade 3D models

ReCap Photo, a service included with ReCap Pro, processes drone photography to create 3D representations of current site conditions, objects, and more. It also supports the creation of point clouds, meshes, and ortho photos.

Photo processing capabilities in ReCap Pro (video: 1:59 min.)

Customize 3D scanning software workflows

Use solutions created with the ReCap Pro Software Development Kit (SDK) to quickly get reality data into Autodesk design and construction tools.
